

# EMILY SUMMERS

STUDIO FIFTY FOUR

INTRODUCING

KHOURI  
GUZMAN  
BUNCE  
LININGER

Khouri Guzman Bunce Lininger designs and produces a line of handcrafted American furniture. The line, built in Brooklyn, NY, is unapologetically modern but executed in materials and utilizing methods associated with older levels of craftsmanship. Working in fumed white oak, silicon bronze and Pyrex, to cite a few examples, KGBL fashions sophisticated pieces that employ marquetry, leather molding and precious metal plating techniques.

“On my first visit to KGBL Studio in New York, I knew I had found an incredible combination of creative design and precise execution. I am proud to represent them at Emily Summers Studio 54 in Dallas.”
